

# SEGREGATION OF WASTE SAVES RESOURCES AND ENVIRONMENT

Why not separate garbage before we throw?  
It might be useful to all of us.

## DRY

Plastic, Paper, Glass  
Metal, Rags, Rubber

Give this to your waste retriever

## WET

Left over food, Kitchen  
Waste, Rotten material,  
Meat, Street and  
House Sweepings,  
Soiled paper

Compost this

## TOXIC

Paints, Pesticides,  
Toxic Chemicals,  
Broken tubelights,  
Expired medicines,  
Used batteries etc.

Tie these and leave in corporation bin for safe and proper disposal.

## SOILED

Diapers, Sanitary  
Napkins, Dressings,  
Infected Cotton, Drips,  
Injection Syringes and  
Needles

## LANDFILL

Soil and Building  
debris

Use for Land filling
